Using QR Codes in the Classroom &
in Student Exhibitions
by Liz Estudillo-Chaffee
Randolph Elementary
Lincoln, Nebraska

Using QR Codes in the Classroom

Appraisal Goal 4c: Communicating with Families

Information about the instructional program

- Building stronger relationships with Randolph parents, guardians, and local community

Core Ability #7 National Standard #5

Talk & Write About Art

Develop Critical Thinking Skills by:

Looking, thinking, writing, and talking about art

Reflecting and assessing the art experience and understand what was learned

Provide and receive feedback to enhance student learning

Go to www.recordmp3.org

Click the “record” button. When you are done click the “stop” button, and then the “save” button. Next click inside the box to “copy” the link and then click “save as”. (You can then access the file later by saving, but I don’t usually save the file, I only save the link)

The screenshot shows the Record MP3 website in a Firefox browser window. The website has a dark background with a white logo and text. A modal dialog box is open in the center, displaying the text: "Recording uploaded to: http://www.recordmp3.org/cr12s.mp3" followed by "<- Click to copy" and a "Save as..." button. Below the dialog, there are buttons for "Save Recording" and "Start Over".

Record MP3
The easiest way to record and share audio

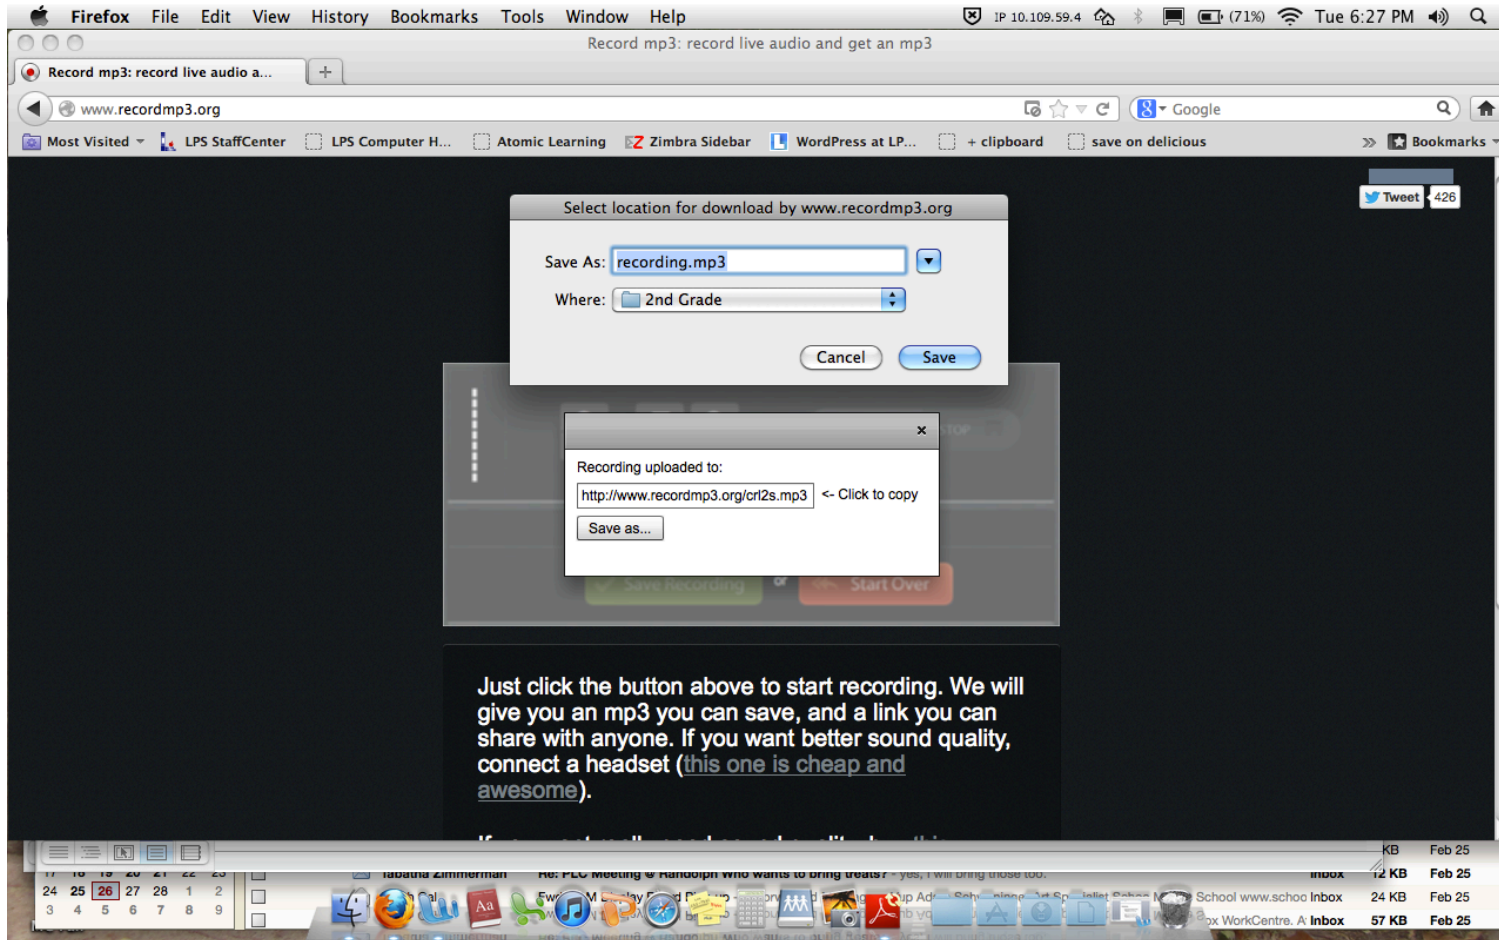

Recording uploaded to:
http://www.recordmp3.org/cr12s.mp3 <- Click to copy
Save as...

Save Recording Start Over

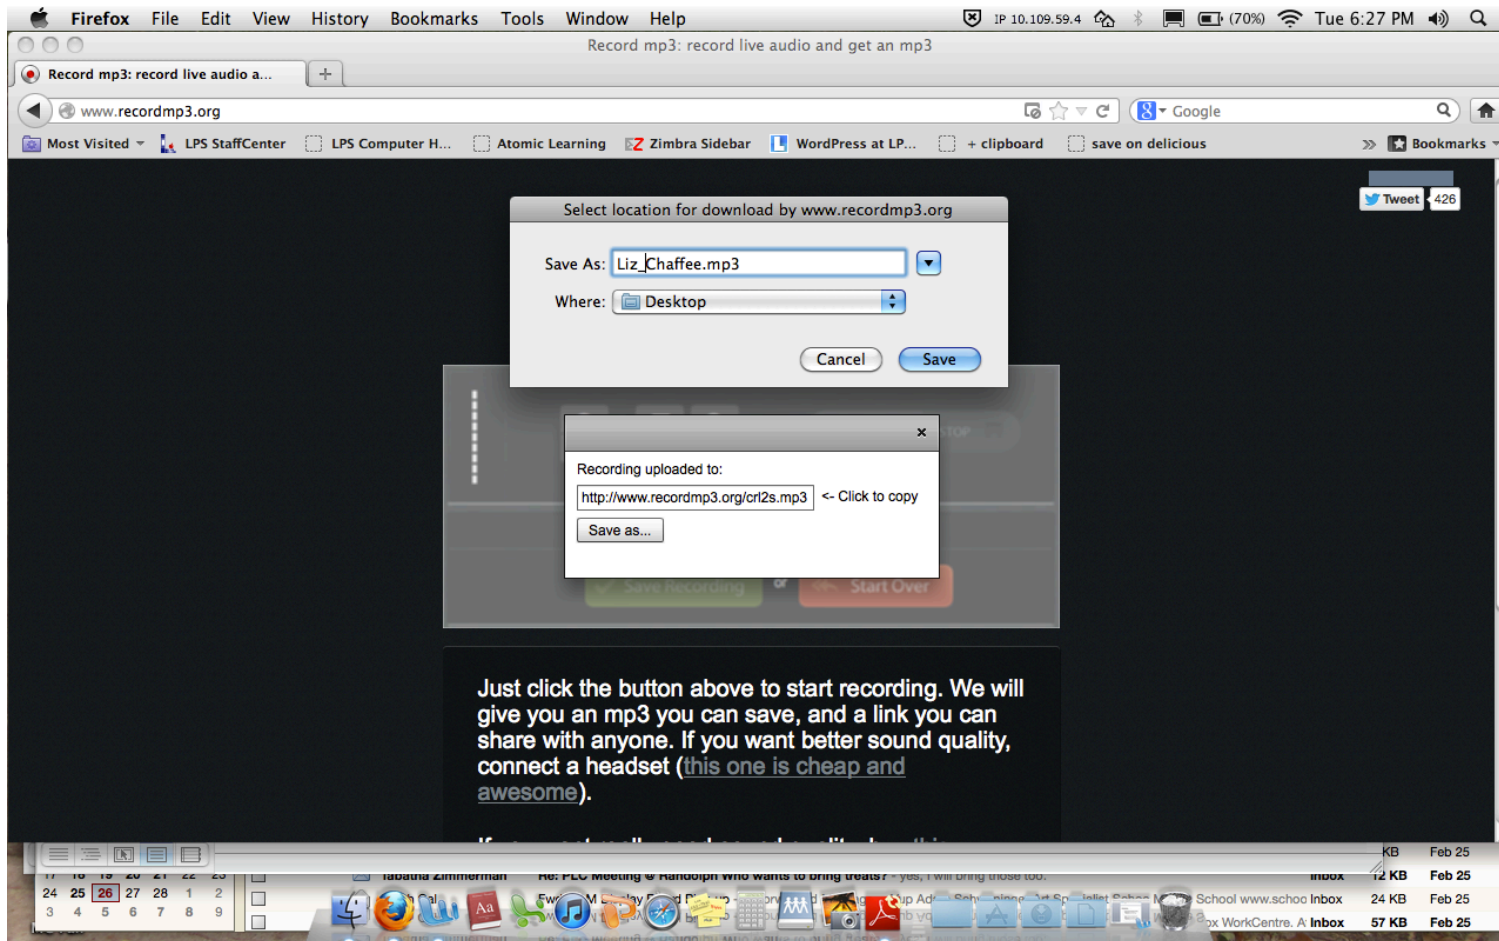

Just click the button above to start recording. We will give you an mp3 you can save, and a link you can share with anyone. If you want better sound quality, connect a headset ([this one is cheap and awesome](#)).

Copy the link in the box. (Highlight text and then click “command, C” Or highlight the text and click “Edit” in the menu bar and then “copy”)

Save your recording with your student's name, ID, or group name if you've chosen to record several students at one time.

See example of “saved file”

Go to qrcode.kaywa.com

The screenshot shows a Firefox browser window with the address bar set to `qrcode.kaywa.com`. The page title is "QR Code Generator and Management with Tracking, Analytics and Support". The navigation menu includes "Home", "Why QR MGMT", "Pricing", and "Sign in". The main content area features the "KAYWA QR CODE" logo, a "GOT A QR CODE READER?" prompt with a "DOWNLOAD KAYWA READER" button, and a form for generating a QR code. The form has radio buttons for "URL", "Text", "Phone Number", "SMS", and "Contact", with "URL" selected. The input field contains "http://". There are two "Generate" buttons: "Generate FREE" and "Generate SAFE". Below the form is a promotional banner for "KAYWA QR MGMT" with the text "For COMPLETE CONTROL OVER YOUR QR CODES Try Kaywa's QR MANAGEMENT". The bottom of the browser window shows a calendar and a taskbar with various application icons.

Insert your copied link in the QR generator.

The screenshot shows the Kaywa QR Code Generator website in a Firefox browser window. The browser's address bar displays "qrcode.kaywa.com". The website's navigation menu includes "Home", "Why QR MGMT", "Pricing", and "Sign in". The main content area features the Kaywa logo, a large QR code placeholder with a red 'X', and a form for generating a QR code. The form has radio buttons for "URL", "Text", "Phone Number", "SMS", and "Contact", with "URL" selected. The input field contains the URL "http://www.recordmp3.org/crl2s.mp3". Below the form are two buttons: "Generate FREE" and "Generate SAFE". To the left of the QR code placeholder is a green circular button that says "DOWNLOAD KAYWA READER" with the text "GOT A QR CODE READER?" above it. At the bottom of the page, there are three sections: "Dynamic QR Codes" (describing changeable QR codes for safety), "Powerful Analytics" (describing tracking capabilities), and a large green "START NOW" button. The browser's status bar at the bottom shows a calendar for February 25th and a taskbar with various application icons.

Click the “Generate” button (URL)
The other preferences are Text,
Phone Number, SMS, Contact

The screenshot shows the Kaywa QR Code Generator website in a Firefox browser window. The browser's address bar shows the URL `qrcode.kaywa.com`. The website's navigation menu includes links for Home, Why QR MGMT, Pricing, and a Sign in button. The main content area features the Kaywa QR Code logo, a QR code, and a form with radio buttons for selecting the content type: URL (selected), Text, Phone Number, SMS, and Contact. The URL input field contains `http://www.recordmp3.org/crl2s.mp3`. Below the form are two buttons: "Generate FREE" and "Generate SAFE". A section below the form provides instructions on how to save the code for use in a blog or documents, including a sample HTML code block: ``. The browser's status bar at the bottom shows an email inbox with several messages, including one from Matthew Auchmoody and another from Tabatha Zimmerman.

Highlight your QR code and click “save”

The screenshot shows a Firefox browser window with the address bar at `qrcode.kaywa.com`. The 'Edit' menu is open, showing options like 'Copy', 'Paste', and 'Delete'. The main content area displays a QR code generator interface with a text input field containing `http://www.recordmp3.org/crl2s.mp3`. The 'Generate SAFE' button is highlighted in green. Below the QR code, there is a section for saving the code to a blog or documents, with a code block containing the following HTML code:

```

```

At the bottom of the browser window, a calendar and a taskbar are visible. The calendar shows the date 26. The taskbar includes icons for various applications and a system tray with a clock showing 6:32 PM on Tuesday.

Once your QR code has been generated copy and save it to a Word Document, Powerpoint, Blog, etc

The screenshot shows the Kaywa QR Code Generator website in a Firefox browser window. The browser's address bar shows the URL `qrcode.kaywa.com`. The website's navigation menu includes links for Home, Why QR MGMT, Pricing, and a Sign in button. The main content area features the Kaywa QR Code logo, a QR code, and a form to generate a QR code. The form has radio buttons for URL, Text, Phone Number, SMS, and Contact. The URL input field contains `http://www.recordmp3.org/crl2s.mp3`. Below the form are two buttons: "Generate FREE" and "Generate SAFE". A section below the form provides instructions on how to save the code and includes an HTML code snippet: ``. At the bottom of the browser window, a calendar and a taskbar with various application icons are visible.

- If you have issues generating a voice recording or QR code then you might need to create create an account and login
